UKAS Certified to ISO 9001:2015, ISO 45001:2018 and ISO
14001:2015

QUALITY MANAGEMENT

HEALTH & SAFETY MANAGEMENT

ENVIRONMENTAL MANAGEMENT

Atom Water Treatment Ltd are proud to announce that we have been awarded UKAS ISO Certification, an internationally recognised standard that ensures our products and services meet the needs of customers through effective management systems. Atoms aspiration to achieve ISO accreditation status demonstrates our commitment to continuously develop and improve our services to you.

ISO is one of the most rigorous and well-regarded standards in the world. Team Atom underwent an extensive company wide audit by the British Assessment Bureau and were presented with their certificates in April 2022.

Gaining ISO and UKAS certification reinforces Atom's relentless focus on creating industry leading service for the provision of Bespoke water hygiene packages, Risk Assessments, Legionella testing and a range of other various water treatment services to range of industries and sectors in the UK.

Atoms Managing director, Brad Connew says:

'Achieving ISO certification is fantastic news and means our clients have complete assurance that our services operate to the highest quality standards. I am extremely proud of my team for their achievement which proves our company's commitment to continuously develop and improve our standards to you, measured against global benchmarks of industry excellence.'
